

Break Free From the High Cost of Propane

Convert to **Electric**SM with **EnerSys**[®]

The Convert to ElectricSM (C2ESM) Program from EnerSys[®] makes it easy to switch from propane to electric power and immediately reduce the cost of running your fleet.

Cut Fuel Costs Immediately

Convert to electric and save \$6,300 on fuel for every truck, every year. You get all the power of internal combustion, while convenient battery and charger leasing cuts monthly expenses from the day you plug in.

FUEL TYPE	OPERATION	BURN RATE	CONSUMPTION	COSTS	TOTAL
Propane	2,000 hrs/yr	1.5 gal/hr	3,000 gal/yr	1 gal = \$2.50	\$7,500
Electric	2,000 hrs/yr	6 kWh/hr	12,000 kWh/yr	1 kWh = 10¢	\$1,200

Energy prices based on national averages available at www.eia.gov.

Savings per Truck with C2E: \$6,300

How much could your fleet save each year?

<u>100 Trucks</u>	\$630,000
<u>50 Trucks</u>	\$315,000
<u>20 Trucks</u>	\$126,000

More with EnerSys®

More Power Ironclad® Batteries

Exclusive square tube technology — available only in Ironclad® batteries — delivers longer run times for applications up to 24/7 on a single battery. The technology also provides up to 20% faster lift and travel speeds and durable operation in all weather conditions.

More Productivity Zero Battery Change — ZBCSM

Eliminate battery changes with ZBC. Specifically designed to provide the highest performance in the most demanding applications, ZBC from EnerSys® minimizes down time and maximizes productivity by eliminating trips to the battery room.

More Sustainability Environmental Leadership

With an EnerSys C2ESM Program, each electric lift truck saves 24,000 lbs of carbon emissions from the atmosphere per year. Plus, at 98%, EnerSys batteries are the most recycled consumer product in the world.

More Intelligence Conversion Specialists

Our dedicated team of conversion specialists use proprietary software to analyze your energy usage and throughput requirements, resulting in a C2E Program custom tailored to your needs.

The Leader in Electric Conversions

Performance and Savings Made Easy with EnerSys®

With over thirty cutting-edge products in our C2ESM portfolio, EnerSys® conversion specialists design solutions that meet the needs of even the most demanding applications. Contact an EnerSys specialist today to discover how much money your company will save.
